Breast Cancer Resources

FOR HEALTHCARE PROVIDERS

Connecting you and your breast cancer patients to trusted information and a community of support.

“My doctor saved my life.
Living Beyond Breast
Cancer saved my soul.”

Wisdom. Support. Truth. Hope.

Living Beyond Breast Cancer is a nationwide nonprofit made up of a powerful community bonded by breast cancer. To fulfill our mission of providing trusted information and a community of support to those impacted by the disease, we offer on-demand emotional, practical, and evidence-based content that is meaningful to those newly diagnosed, in treatment, post-treatment, and living with metastatic disease.

For nearly 30 years, Living Beyond Breast Cancer has imparted wisdom and connection via conferences, events, a peer-to-peer helpline, and more. Our resources are reviewed by leading healthcare professionals and people impacted by breast cancer to ensure both medical accuracy and patient accessibility.

Helping you help those in your care.

Our practical, evidence-based information
and emotional support resources work
together to inform and relate with respect.
