

THRIVE 365

As I visited doctors, learned the ins and outs of treatment options and prognosis, I would ask, **“HOW DO I EXPLAIN THIS TO MY CHILDREN?”** — Juakita, diagnosed at age 41

“I dreaded having to utter the words *mommy* and *cancer* in the same sentence.”

Living Beyond Breast Cancer’s **Reading for Reassurance** program provides parents with curated books and resources written for kids of all ages. These resources help spark conversations about cancer.

Since 2012, Living Beyond Breast Cancer has distributed 3,500 books to more than 1,700 families at no cost.

DONATE to Living Beyond Breast Cancer to help make a difference in the lives of those impacted by breast cancer. **#Thrive365**
