

FOR PEOPLE DIAGNOSED WITH BREAST CANCER BEFORE AGE 45

Become a Young Advocate!

Our Young Advocate Program provides tools and training to help young people who have been diagnosed with breast cancer:

- use their personal experience to make a difference in their communities
- further their understanding of the disease and advocate for others

“I not only gained new and valuable knowledge and insight, but I also built meaningful friendships that I truly cherish. For the first time, I feel like I’m part of a supportive community that understands my experiences.”

- 2025 Young Advocate
